His condition is considered serious. He refused to give his name or make any explanation of his presence in the yard.

ate woman suffrage committee. Chairman Thomas and Senator Owen, Democrats and Senators Jones, Hubert and Clapp, Republicans voted for the resolution, while senator Catron, Republican, voted against it.

When the resolution is reported by chairman Thomas within a few days, an effort will be made to have it taken up during the present session if the tariff legislation does not interfere.

Charges Immorality Among Indians.
General charges of immorality among students at the Carlisle Indian school were made today by Laura C. Kellogg, of student affairs, before the senate Indian committee. Miss Kellogg declared the superintendent there did not maintain the standards of discipline necessary in such an institution. When questioned by the senators, Miss Kellogg said she could give no specific instances of immorality at Carlisle.

Large Federal Inquiry.
Senator Kern presented to the senate a series of resolutions and petitions from labor unions in West Virginia and Indiana complaining of conditions in the Paint Creek coal region and urging the federal inquiry the senate has proposed.

May Return Ransom Fund.
Senator O'Gorman's bill to have the government return to private contributors \$88,000 they subscribed to ransom Ellen M. Stone, the missionary, from brigands in the Balkans, was favorably reported from the senate foreign relations committee, over the earnest protest of senators who contended that it established a dangerous precedent, particularly regarding the situation in Mexico.

Signs Posts for the Desert.
To lighten the weary way of the prospector across the arid lands of the west and rob him of the terrors of the desert is the object of a bill by senator Works reported favorably by the senate public lands committee. It would appropriate \$10,000 with which the geological survey would locate springs, streams and water holes and place sign posts and monuments along the lines of travel to guide travelers to water.

China Thanks the U. S.

Would Annul Roosevelt Order.
Chairman Pittman of the senate territories committee introduced a bill to annul former president Roosevelt's proclamation of 1907 creating the "Chugach National Forest" of eleven million acres and to restore it to the public domain. Officials of the Alaskan Northern railroad claim the road had to suspend building because of the withdrawal and the consequent inability to get timber from the forest.

Republicans Delay Appointments.
Senate Republicans began their first big fight on presidential appointments when the appointment of W. J. Harris, of Georgia, as director of the census was taken up. The present session, for nearly five hours the senate played at cross purposes on the nomination without even reaching the question of the merits of the case. The Republicans forced a recess and in support of their position the Democrats termed dilatory.

Republicans declare they intend to keep up the fight against Harris until July 1, when Mr. Durand, the present incumbent, has announced his intention of resigning.

The Republican fight centers largely on the contention that offices retaining technical knowledge and little attainments should not be given as political rewards, but that qualification and experience should be the standard.

While no charges have been made against Mr. Harris, the Republicans claim that he was not so well qualified, by experience, as was Mr. Durand.

Bryan Currency Not Adopted.
Conferees between President Wilson, leaders of the house and senate and ultra currency legislation will be held at the white house probably early next week after major leaders of the house banking and currency committee. It is understood the draft of the bill does not provide for a guarantee of bank deposits which Wm. J. Bryan has favored, and may contain some other provisions not in accord with Mr. Bryan's views as expressed in some of his public speeches. House leaders are awaiting with a great deal of interest his statement on the currency to be issued through the banks is one of the provisions contemplated.

Representative Carter, chair of the committee on the senate banking and currency committee and secretary McAdoo are expected to join in the white house conference.

Washington, D. C., May 14.—Symbolic of the hope for universal peace, secretary Bryan today launched the "Fellowship" as a sister to the "Friendship" which he launched yesterday at the breakfast to the Ghent peace delegates.

Mr. Bryan was an early caller at the white house and as he left the executive offices, he told a group of newspaper men how the idea of the two "ships" came to his mind.

"It was Andrew Carnegie," he explained, "who suggested it to me by his speech in which he referred to the tiny dreaughts of 160 tons each, which had for a hundred years kept bobbing on the great lakes. Those two 'little grubboats' made me think of happy it would be if, through Fellowship and Friendship these relations were maintained."

has become too careful, has made legislation on this subject too difficult, and has placed the secretary of the interior and other cabinet officers in such a position that they must of necessity place the most radical constructions on these laws.

"I find that the request for an extension of payment of the cost of almost all of the projects has been made by the secretary of the interior. It is generally poor men who seek places on the projects and it seems that in some cases an almost impossible burden has been put upon the settlers. I believe that this should be lightened by extension of time, and that such a request should be given the broadest of construction."

ATTORNEY GENERAL PROVES WANAMAKER CUSTOMS CASE
Washington, D. C., May 14.—Attorney general McReynolds, nearly has finished investigating the John Wanamaker customs case and will decide in a few days if any evidence has been disclosed to present to a federal grand jury.

In the closing days of the Taft administration Mr. Wanamaker paid \$100,000 to the treasury to settle civil liability for irregularities in assessing duties on imports over a period of about 15 years. A minor employee in the Philadelphia customs house was permitted to resign with the explanation that he had been careless.

Some treasury officials said Wanamaker had paid to the government more than \$100,000 in order to avoid civil action. Secretary McAdoo when he took office asked the attorney general if there was any evidence of intent to defraud the government.

As far as the officers here know, Smith is still with the Mexican rebels, having been released from the Juarez jail on the understanding that he join Antonio Rojas. While it was known that Smith was at Juarez, all efforts of the local officers failed to entice him to El Paso where it was planned to arrest him.

Tests show it to be 99 percent pure through a 100 mesh screen.

SANTA ROSA WOMAN TO BE TRIED FOR MURDER
Mrs. Cayetano Silva de Ortiz Bound Over to Grand Jury at Preliminary Hearing; Furnishes Bond.

Santa Rosa, N. M., May 14.—Charged with the murder of her husband, Fernando Ortiz, Mrs. Cayetano Silva de Ortiz will be brought to trial at the fall term of the district court for Guadalupe county to be held here. The woman after a hearing before a justice of the peace at Puerto de Luna was bound to the grand jury and released upon a bond of \$2000.

Ortiz died on April 24, after having been lying at the point of death for several weeks as the result of wounds inflicted by his wife. It is alleged Mrs. Ortiz admits having shot her husband, but says she did so in self defense. Her story is as follows:

"For several days my husband had been acting queerly, and I believed that he was becoming insane. One day he came into the house and asked me, trying to choke me. I fought him off and we both fell to the floor. Fearing he would again get a grip upon my throat, I called for help. Marcelino Duran, a neighbor, ran in and made my husband let me go. He then went away. My husband again tried to seize me and I shot him with a revolver while he was always getting a grip upon me. I shot to prevent my husband from killing me."

Ortiz and his wife lived in the county several miles from Puerto de Luna.
